As a mutual insurance company, our goal is not to maximize profits, but to keep our members safe and happy. We achieve this by providing intelligent insurance solutions, outstanding personal and digital services, transparency and sustainability – in short,

a partnership of equals. More than 14,000 member companies in nine countries already place their trust in us today.

# Unique **RISKS**, unique **EXPERTISE**.

Your business in good hands.

Gartenbau-Versicherung is the green specialist insurer for European horticulture. Our members are production companies, retail nurseries, tree nurseries and garden centers. With our unique expertise in horticulture risk management, we stand by their side as a trusted partner.

## Our core competencies:

- Unrivalled knowledge of industry-specific risks
- Expert risk and prevention consulting services
- Tailor-made insurance cover
- Risk-appropriate pricing
- Swift and fair compensation in the event of a claim
- Protection of your livelihood and liquidity

Bioland Kräutergut

”

We have been insured with Gartenbau-Versicherung ever since our company was founded. We have always been very well looked after and they have never let us down. In fact, Gartenbau-Versicherung even approached us and told us that they could pay for the damage (glass breakage). **They have always given us sound advice and there was always someone there for us when it mattered.**

# Strong members, strong **VALUES.**

Community is what makes us strong.

## Responsibility

As the market leader, it is our responsibility to provide protection for our members as well as to ensure a positive future for the horticulture industry, the environment and society as a whole.

## Transparency

We make risks visible – and therefore security feasible. Because we not only show our members effective risk management tools. We also create transparency about our services and processes, decisions and goals.

## Sustainability

Operating sustainably is in our nature – after all, our roots in the green sector go back more than 175 years. That is why we are committed to making a difference – ecologically, economically and socially. Because sustainability is much more than just a buzzword.

We have always felt **well looked after** by Gartenbau-Versicherung. Thanks to the principle 'Growers insure growers', damages are realistically evaluated by experienced assessors. Claims are processed **promptly** and the procedure is **uncomplicated**. We are very happy with the way they work.

# We **PROTECT**...

## ...GREENHOUSES

With us, glass greenhouses, film greenhouses and the crops within them are in the best of hands: We provide reliable protection against natural hazards, fire and technical defects.

## ...GARDEN CENTERS

Whether you are an owner-managed garden center or a retail nursery – we take care of the risks so that our members can concentrate on what really counts: the needs of their customers.

## ...OPEN-FIELD CULTIVATION

Extreme weather events, technical outages, and damage caused by sabotage or vandalism pose a threat to your open-field ornamental and vegetable plants. We offer tailor-made solutions for horticultural businesses with open-field production.

## ...TREE NURSERY STOCK

Your trees, shrubs and nursery trees are particularly exposed to risks and require special protection against hazards posed by the weather, fire and faulty technology.

## ...AGAINST CYBERCRIME

We provide individual support and immediate assistance for the recovery of IT systems and databases following attacks by hackers, Trojans or ransomware.

## ...PROTECTED CULTIVATION

Our tailor-made insurance solutions enable our members growing fruits and vegetables in film tunnels with anti-hail systems to insure themselves against the adverse effects of the elements, fire and other risks.

## ...PHOTOVOLTAIC SYSTEMS

We offer our members comprehensive insurance solutions for PV systems on greenhouses, buildings or as agri-PV systems. Our extended coverage includes various types of damage and business interruption.

## Get to know us and what we **STAND FOR.**

Collaboration is at the heart of everything we do.

---

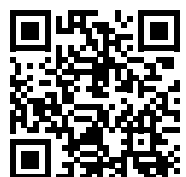

When it comes to damage events, we don't leave you out in the cold, but react quickly, professionally and unbureaucratically. This is why, according to a survey, 97.1 per cent of members who have submitted a claim report being at least "satisfied" with the settlement.

**97,1%**  
satisfaction with claims handling
